

LALIT LALWANI

PORTFOLIO

WORK EXPERIENCE

Deeporion Technologies (*Front End Developer Intern*)

Apr 2024 – Present | Jaipur, India

- Gained hands-on experience working on live projects, collaborating with senior team members to build modern technology solutions.
 - Deployed and maintained reusable components, ensuring code scalability and maintainability.
 - Contributed to the design, development, and deployment of [specific technologies, tools, or systems used], learning best practices in software development and project management.
 - Gained exposure to agile development methodologies, working closely with cross-functional teams to deliver high-quality results within set timelines.
 - Assisted in troubleshooting, debugging and optimizing code for performance and scalability.
- Developed strong interpersonal skills through close collaboration with senior engineers, stakeholders, and other interns.

GPC Solutions (*Full Stack Developer*)

Feb 2024 – Apr 2024 | Jaipur, India

- Collaborate with our design team to implement user interfaces that are both visually appealing and functional. Utilize HTML, CSS, and JavaScript frameworks to create responsive and interactive web pages. I used to build the API based on Node.js and test those API's on testing platform like Postman.

PROJECTS

1. Deeporion HR Portal | React.js, Tailwind CSS, Redux | [LINK](#)

Collaborated with a cross-functional team to develop a dynamic HR management portal. The platform includes features such as employee management, attendance tracking, leave management, and payroll integration. Implemented responsive design for seamless performance across devices and utilized frameworks like React, Tailwind, Redux, and many third party library like react quill, react graph and react calendar and many more.

2. Deeporion Hiring Portal | React.js, Tailwind CSS | [LINK](#)

Collaborated with a cross-functional team to develop a dynamic hiring portal, streamlining the recruitment process. Designed and implemented responsive user interfaces using modern frontend technologies such as React. Key features included job postings, candidate applications, interview scheduling, and real-time tracking. Worked closely with backend developers to integrate APIs for seamless data flow functionality. Focused on creating an intuitive and engaging user experience to enhance both recruiter and candidate interactions.

3. Movie Guide App | HTML, CSS, JavaScript and API Integration | [LINK](#)

Developed a movie review website featuring IMDb ratings, release dates, durations, and insightful summaries, providing users a comprehensive guide to their favorite films.

EDUCATION

Suresh Gyan Vihar University

2023-2024 | Jaipur

Post Graduation Diploma in Computer Application

Lal Bahadur Shastri PG College

2016 – 2019 | Jaipur

Bachelor of Science

SKILLS SUMMARY

- **Languages:** C++, JavaScript, SQL
- **Tools:** VS code, MySQL, Git, SQLite
- **Web Develop:** HTML5, CSS3, ReactJS, MongoDB, Redux, Node.js, Express, Tailwind CSS
- **Core Subjects:** Operating Systems, OOPs, Databases
- **Soft Skills:** Leadership, Event Management, Public Speaking, Time Management

INTERESTS

Code Reviewing, Collaboration & Teamwork, Innovation & Creativity Tech Community Involvement.
